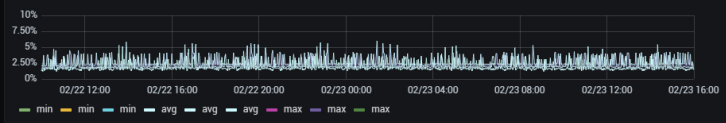
General / Cilium v1.12 Agent Metrics

2023-02-22 10:00:00 to 2023-02-23 16:00:00 UTC

pod All

Errors & Warnings

CPU Usage per node

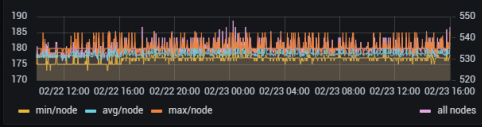


Generic

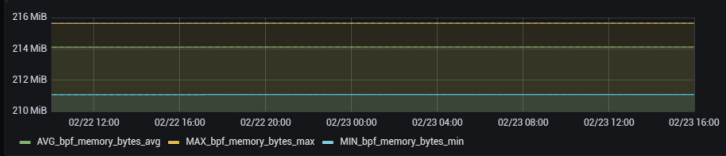
Virtual Memory Bytes

Resident memory status

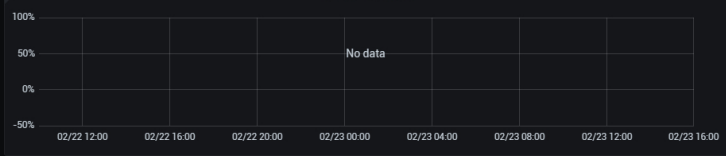
Open file descriptors



System-wide BPF memory usage

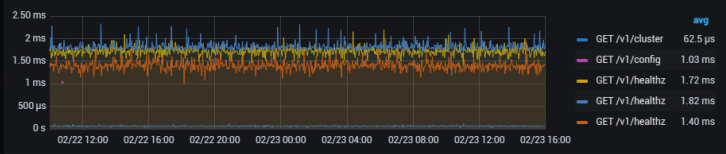


BPF map pressure

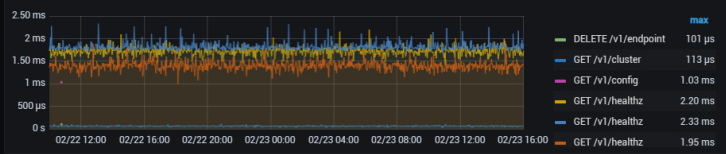


API

API call latency (average node)



API call latency (max node)



API calls (average node)

API calls (max node)

API return codes (average node)

API return codes (sum all nodes)

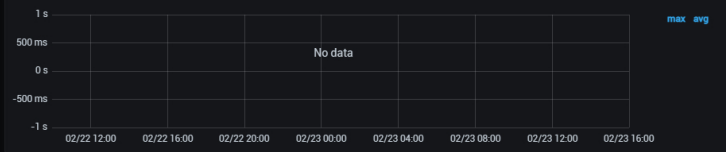
Cilium

BPF

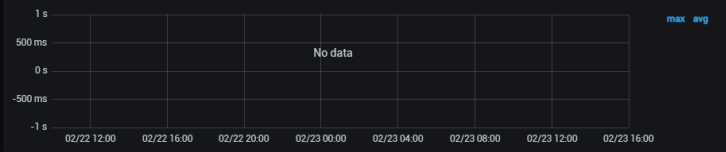
system calls (average node)

system calls (max node)

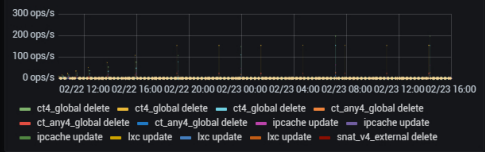
system call latency (avg node)



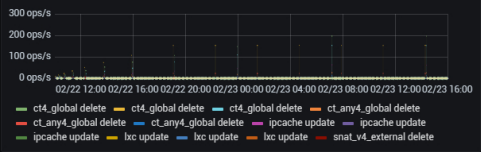
system call latency (max node)



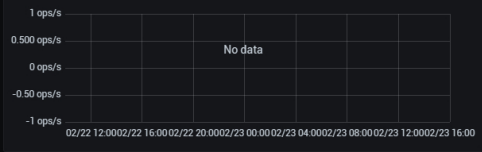
map ops (average node)



map ops (max node)

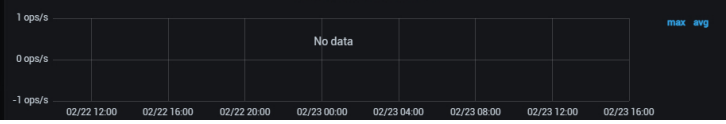


map ops (sum failures)

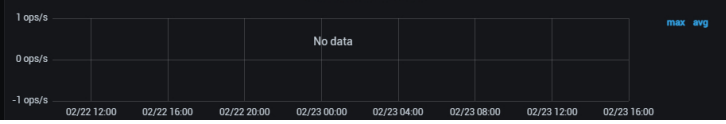


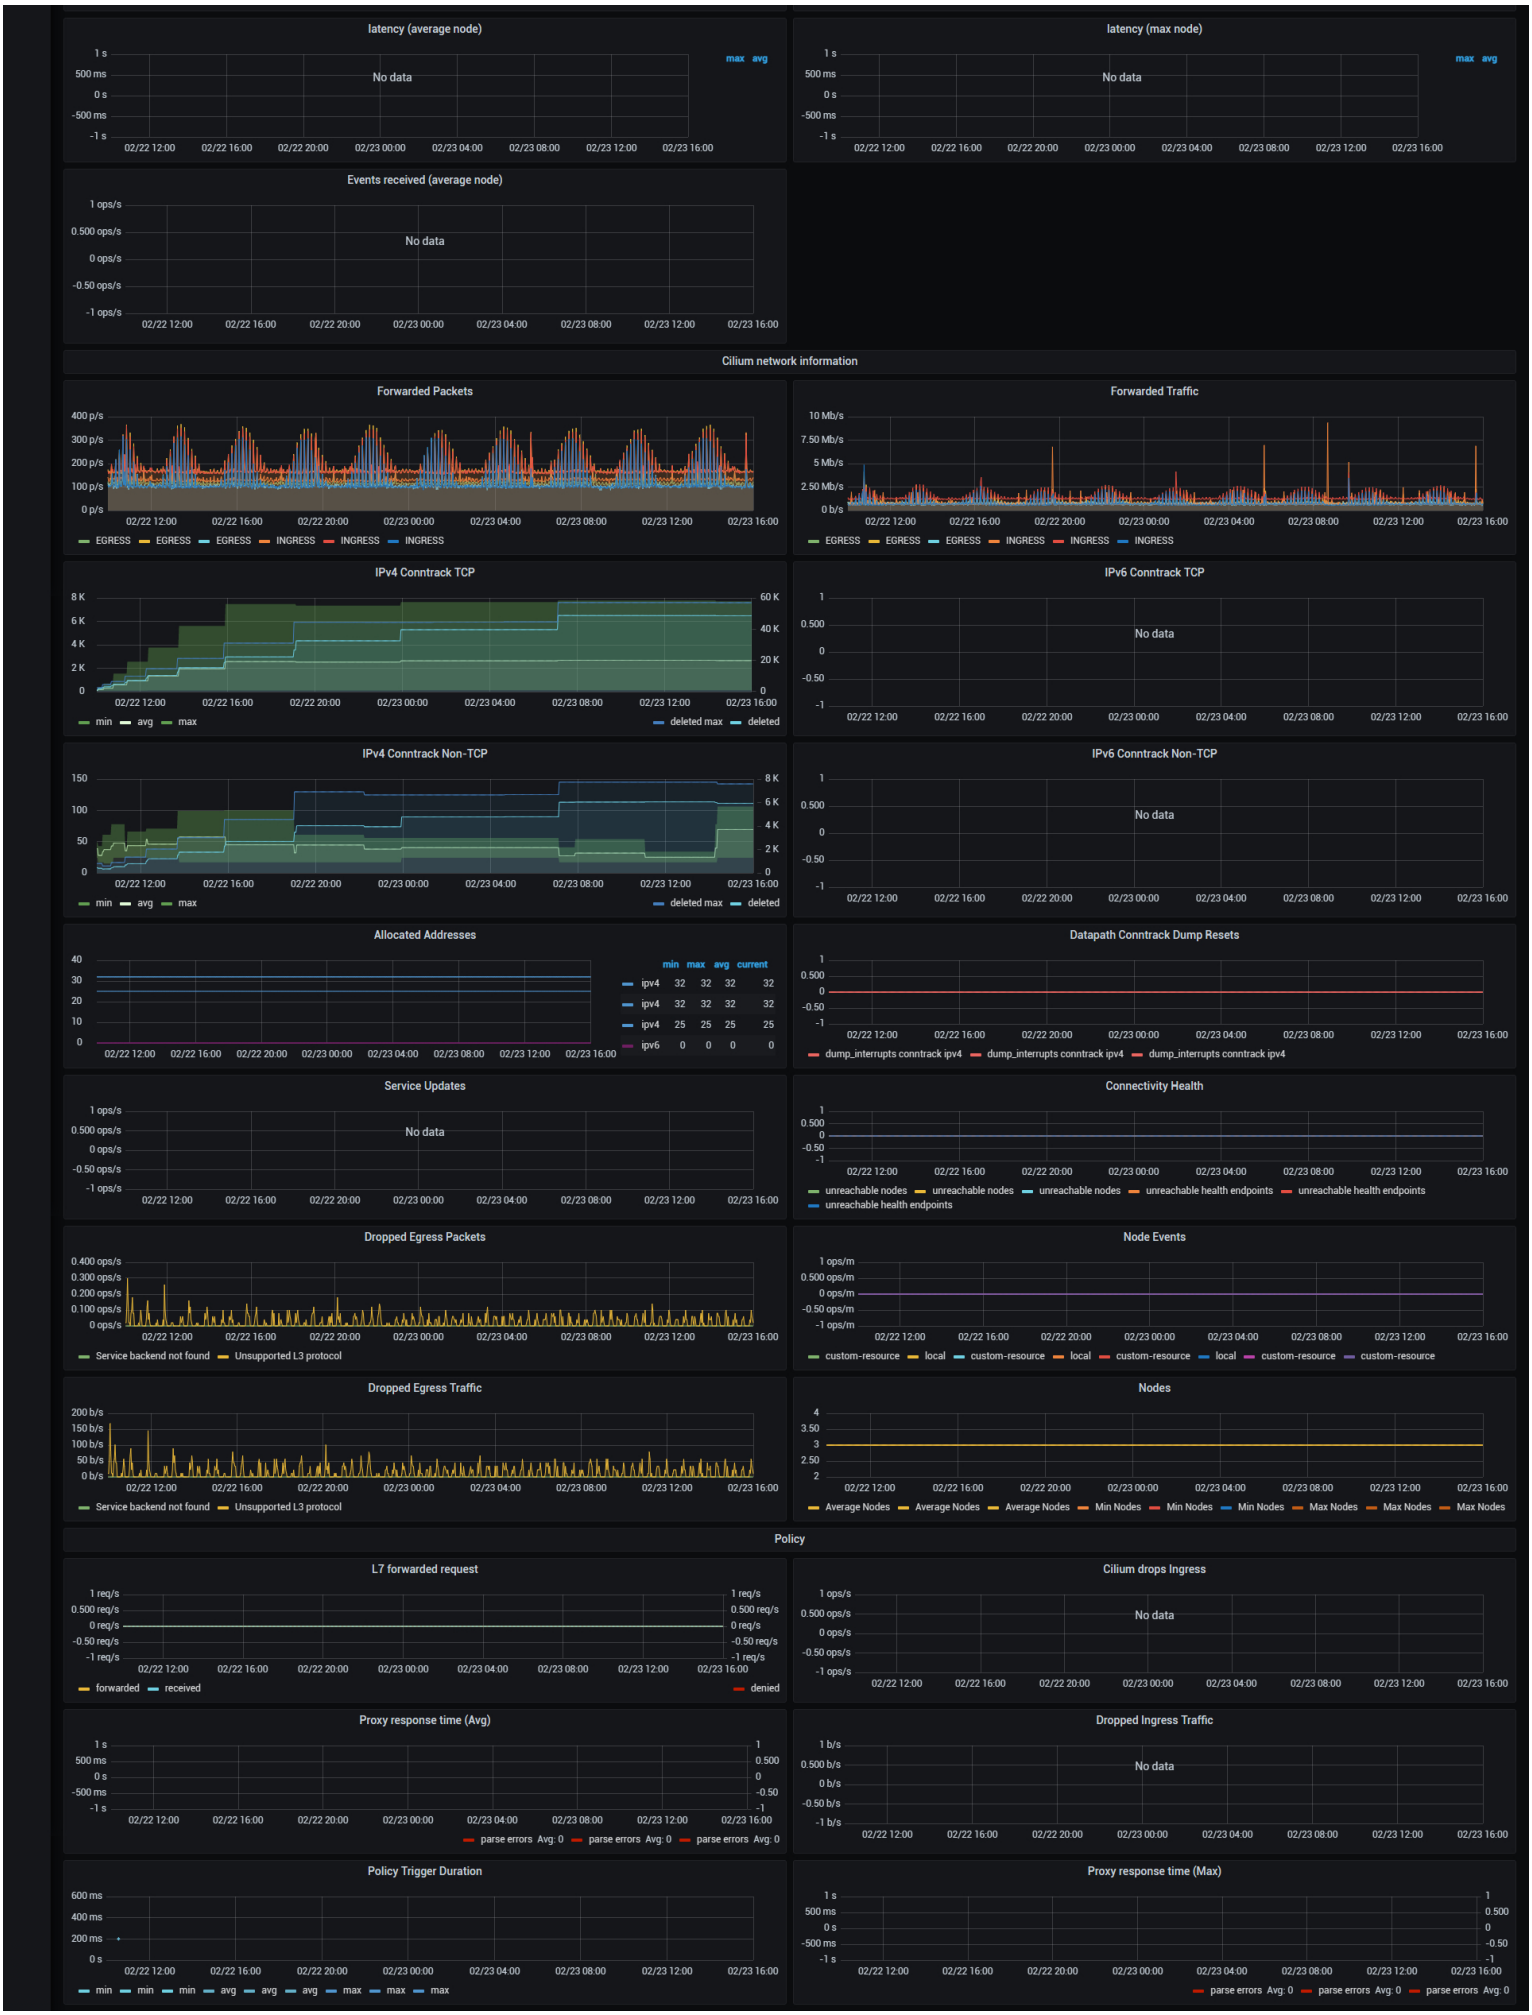
kvstore

operations (sum all nodes)



operations (max node)





latency (average node)
