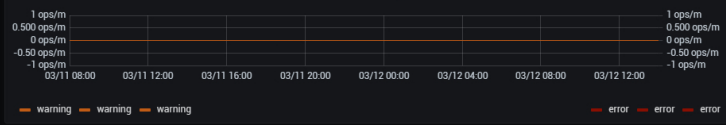
General / Cilium v1.12 Agent Metrics

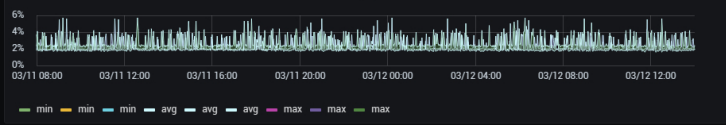
2023-03-11 08:00:00 to 2023-03-12 14:00:00 UTC

pod All

Errors & Warnings

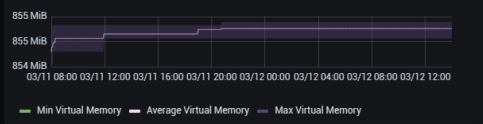


CPU Usage per node



Generic

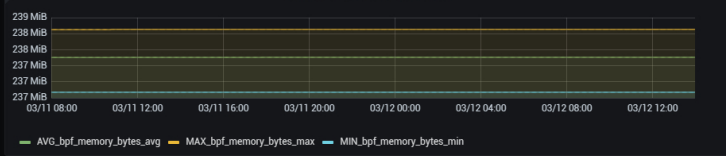
Virtual Memory Bytes



Resident memory status

Open file descriptors

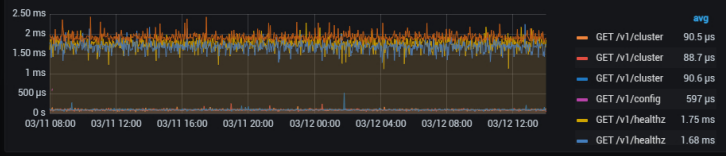
System-wide BPF memory usage



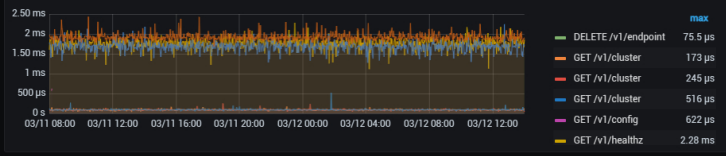
BPF map pressure

API

API call latency (average node)



API call latency (max node)



API calls (average node)

API calls (max node)

API return codes (average node)

API return codes (sum all nodes)

Cilium

BPF

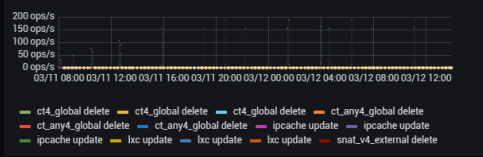
system calls (average node)

system calls (max node)

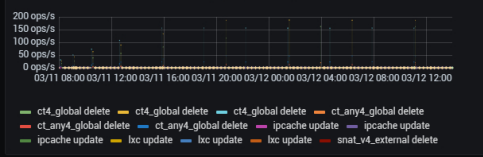
system call latency (avg node)

system call latency (max node)

map ops (average node)



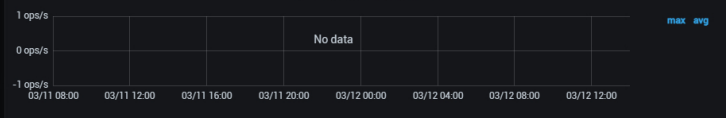
map ops (max node)



map ops (sum failures)

kvstore

operations (sum all nodes)



operations (max node)
